Quality Policy

The Bitterness of Poor Quality Remains Long After the Sweetness of Low Price is Forgotten

At J. C. Gupta & Sons, Quality is not an act, it is a habit. We aim to deliver products of the highest quality to meet our customers expectations and uphold relevant technical standards through continuous improvement and industry leading techniques.

Our offered product range is identified with reliable quality and punctual delivery schedules for several industries including automobile, construction and for various fabrication units.

Our top-of-the-line R&D department is focussed on expanding our high-potential product range with new and improved features.

We constantly monitor our suppliers to ensure we work with the best partners. We carry out quality checks of incoming material to ensure adherence to technical standards.

We are committed to achieving operational excellence by holding ourselves to the highest standards and delivering the required quality at the right time through Total Quality Management.
